

Accessing Client IID Results: A Guide for Treatment Court Professionals

As a treatment court professional, monitoring your clients' Ignition Interlock Device (IID) results is essential for effective supervision and intervention. The Wisconsin Department of Transportation provides direct access to this critical data through a streamlined request process.

Request Access

Email BAIID@dot.wi.gov with your name, email address, professional title, and county to gain access to client IID results.

Road Guard System

For Road Guard system access, complete the form available at [this link](#) and email to the address at the bottom of the form.
