State of Wisconsin, Plaintiff
-vs-

**Order of Commitment for Treatment
(Incompetency)**

Defendant's Name _____

Case No. _____

Date of Birth _____

Defendant's:

Telephone Number	Address
Present Location	

THE COURT FINDS:

1. The defendant was
 charged and a probable cause determination was made as to the following crime(s):
 found guilty of the following crime(s):

Crime(s) (include enhancers, if any)	Wis. Statute(s) Violated	Date(s) Committed

2. The defendant is incompetent to proceed at this time, but if provided with appropriate medication and treatment, is likely to become competent:
- within 12 months, or
 - the maximum sentence specified for the most serious offense, whichever is less.
3. **Involuntary administration of medication**
- A. The defendant is mentally ill and is charged with at least one serious crime. The involuntary administration of medication(s) or treatment is
- 1) necessary to significantly further important government interests, and
 - 2) substantially likely to render the defendant competent to stand trial, and
 - 3) substantially unlikely to have side effects that undermine the fairness of the trial by interfering significantly with the defendant's ability to assist counsel in conducting a trial defense, and
 - 4) necessary because alternative, less intrusive treatments are unlikely to achieve substantially the same results, and

- 5) medically appropriate, that is, in the defendant's best medical interests in light of the defendant's medical condition. **AND**
- B. The involuntary administration of medication(s) and treatment is needed because the
- 1) defendant poses a current risk of harm to self or others if not medicated or treated.
 - 2) administration of medication and treatment is in the defendant's medical interest, and
 - 3) defendant is not competent to refuse medication or treatment due to mental illness, developmental disability, alcoholism, or drug dependence because:
 - The defendant is incapable of expressing an understanding of the advantages and disadvantages of accepting medication or treatment and the alternatives.
 - The defendant is substantially incapable of applying an understanding of the advantages, disadvantages and alternatives to his or her mental illness, developmental disability, and alcoholism or drug dependence in order to make an informed choice as to whether to accept or refuse medication or treatment.
