Supreme Court of Wisconsin

NO. 2024AP1942-CR **STATE V. MELSSEN** **L.C.#2021CF29**

September 17, 2026

The Court has entered the following order:

On August 21, 2026, this court granted a petition for review filed on behalf of the plaintiff-respondent-petitioner, State of Wisconsin. The issues raised in the petition for review are whether the search warrant for a cellphone violated the Fourth Amendment because it was insufficiently particular and overbroad and whether the search warrant stated probable cause of drug-related activity.

The State has filed a motion to supplement the record in this case with the entire record in a separate criminal case involving the same defendant: *State v. Melssen*, Lafayette County Case No. 2021CF26/No. 20241941-CR (*Melssen I*).

IT IS ORDERED that the motion is denied. The State avers that it believes the record from *Melssen I* is necessary to an understanding of the issues in this case and "may include record items relevant to the claims that the court will address." WIS. STAT. § 809.15(3) provides, "A party who believes that the record, . . . is defective or that the record does not accurately reflect what occurred in the circuit court may move the court in which the record is located to supplement or correct the record." The State fails to explain how record items from a separate criminal case involving Mr. Melssen render the record in this case defective or cause the record here to not accurately reflect what occurred in the circuit court proceeding underlying this matter.
