CLERK OF SUPREME COURT
OF WISCONSIN

To Whom It May Concern:

Judges must recuse themselves if they have a vested interest in the case being presented to them either financially or physically. You cannot make a fair and impartial decision then you have some type of interest in the information being presented. Being in the pocket of a financial contributor shades the outcome no matter how much a person might say it isn't a factor, it is. We are only human if we are in public clothes or black robes. Please consider this seriously. So much of our transparency is being lost as it is. We should be able to trust the judicial system to be fair and impartial in their judgements.
